

# NH/VT Federal Health and Safety Council

## Accident Investigation and the OSHA 300 Log

When an injury occurs at the workplace employers must perform an accident investigation. What that entails and how to execute and document such an investigation will be the focus of this presentation. How this ties into the OSHA 300 Reporting Log will also be reviewed. Bring your questions and get the most out of this free workshop.

**February 14, 2006  
9:00—12:00**
